Lanset News serious.

London, August 1.—The Daily News says:
"The latest news from Bangsok is very serious. Siam, having accepted the French terms, France's persistence in ecercive measures will be equivalent to an unprovoked declaration of war, if not an open demand for the cession of Stam. The Foreign Office has never been in better or firmer hands than now. We have no desire to attack France, but while Lord Rosebery made up his mind from the first not to assist or encourage the Siamese, he was equally determined, with the full approval of his colleagues, to protect the commercial rights determined, with the full approval of his colleagues, to protect the commercial rights of his own countrymen. He distinctly warned France that British vessels could not be stopped under a blockade avowedly pacific in character. It is quite impossible for Great Britain to withdraw the ships she sent to Bangkok for protective purposes. We cannot be accused of exciting public feeling against France, but moderation is one thing, weakness another."
